## PRIVATE COLUMBARIA

More often than not a columbarium is perceived strictly as a community building. **Rock of Ages** offers you the opportunity to have your own private columbarium designed to fit your style and needs.

Workmanship Second To None

*Remains  
Memorials*

Many families are choosing cremation and are looking for options other than a community columbarium for their loved ones or themselves. They desire a tribute that is as unique and special as the individual who they wish to remember.

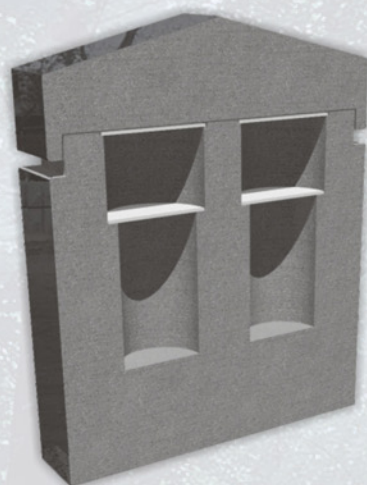

Rock of Ages has created special cremains memorials to provide these families with a more traditional and personal memorial. These memorials have niches integrated in cubes, benches, upright designs, or private family columbaria. In every case these designs are practical, aesthetically pleasing and secure alternatives.

Rock of Ages has been in operation since 1885 in quarrying and manufacturing. As a result, there is a strong thread of tradition that binds generations of craftsmen together to assure you an ideal tribute to your loved ones.

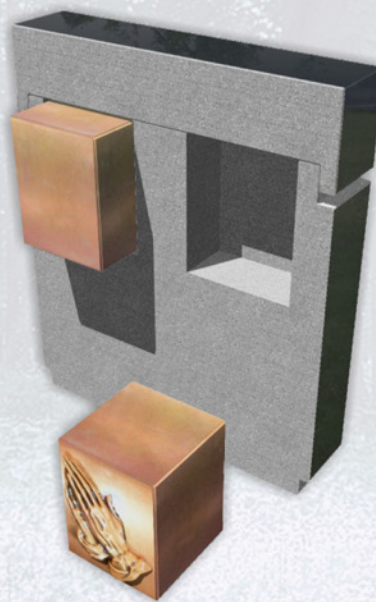

A memorial crafted by Rock of Ages is an enduring symbol of dedicated craftsmanship.

Whether you chose to have the cremains of your loved one placed directly into the niche or interred with an urn, Rock of Ages will design a memorial to fit your requirements.

Safety is a priority when it comes to your loved ones. We will be pleased to show you the Rock of Ages locking device that will bring you peace of mind.
